ARIZONA GRANTMAKERS FORUM is proud to host a conversation with noted author Nathan Dungan, an industry thought-leader on helping youth and adults link their money decisions to their values. His presentation will help you discover new ways to talk and think about money among family members and between generations.

Who is shaping the money habits and values of today's families - especially our youth? Are the current trends foreshadowing even greater financial challenges in the future? Amid the mixed signals of our hyper-consumer culture, it can be difficult for parents and others to communicate with and involve the next generation in developing healthy money habits. In this fun, thought-provoking presentation, Nathan Dungan will discuss what it takes to inspire, motivate, and encourage the next generation to achieve long-term success and be stewards in their communities.
